REMARKS

25X1X

25X1C

1. There was night flying by one plane at Stendal-Borstel airfield on 4, 7, and 12 June 1951. At 10 a.m. on 15 June, 14 single-engine ground attack aircraft were parked in front of the hangars. The planes were of the same type as previously observed. * Five trucks each loaded with 40 barrels of gasoline, moved to a fuel dump located in a wooded area north of the hangars. **
2. On 17 June, a pilot, (lieutenant) who was known to have been stationed at the field before was again seen among the personnel of the field. The number of aircraft could not be determined. The barracks installations at the field were under repair.

25X1C

- * Comment. An air reconnaissance regiment equipped with IL-10s and IL-12s is stationed at the airfield. The total number of aircraft assigned to the regiment is not known. The regiment usually practices together with army artillery units.
- ** Comment. The exact location and capacity of the fuel dump are not known.
